Background and Experience:

I joined ECMS in February 2026 from having previously been deployed within a prestigious support dog role in The Shetland Islands, I was drawn to ECMS by the prospect of career enhancement.

I am an experienced Good Boy and Canine Workplace Professional, with a strong background in chaos, cuddles and keeping everyone on their toes.

Throughout my career, I have gained extensive paws-on experience in running around the office at maximum speed, fighting with my line manager Digby, strategic woofing, catching leaves and rolling around in grass as part of my SEND (Sensory Experiences for Naughty Dogs) advisory role.

I am also highly experienced in Human Assessment & Cuddle Management. I can be a little cautious around unfamiliar faces and loud noises, but I am an excellent judge of character. Once I decide you are good at giving pets a cuddle, I quickly become your best friend and expect cuddles to continue indefinitely.

My other areas of expertise include professional office sunbathing, long walks, windowsill surveillance and making sure ECMS staff receive an appropriate amount of attention.

Current Role:

- Participate in high-speed chases around the office, daily play fighting, wrestling and excessive woofing with Digby.
- Catching leaves wherever operationally possible.
- Providing regular workplace entertainment and morale support.
- Occupying the office windowsill for strategic sunbathing and outside-world surveillance.
- Encouraging healthy lifestyles through walks and enthusiastic grass rolling.
- Providing cuddles to approved personnel
- Maintaining strict security protocols by barking at suspicious noises, dogs and occasionally things nobody else can see.
- Assessing all new humans to determine whether they possess the high-quality skills, knowledge and experience required by the Company.

Key Achievements:

- Expert-level “zoomie” technician
- Advanced Digby play-fighting certification
- Specialist leaf catcher
- Highly accomplished (SEND) grass roller
- Exceptional cuddle provider
- Successfully converted numerous strangers into Chester enthusiasts

Training Courses:

- Behaviour Management for beginners – September 2026
