

## Case Study

### Charley Stanfield Maher

Charley is 16 years old and was provided with a home education package in 2023 to support her private tutor and staff team with formalised accreditation.

The initial setup for ASDAN supported Charley's education package and allows her Education, Health and Care Plan (EHCP) to remain live and current, with the curriculum provision as suitable, stimulating, age appropriate and linked to her EHCP outcomes.

The ASDAN **Personal Development Programme** has provided Charley with purpose and structure to her working week, with stimulating functional activities as well as the opportunity to gain relevant accreditation.

A dedicated team of professionals supports Charley, with her support staff and private teacher playing a vital role in developing her skills.

Over the past three years Charley has achieved her Bronze, Silver, and Gold ASDAN awards alongside an Animal Care **Short Course** to supplement the Gold award.

Feedback from Charley's ASDAN moderation was amazing.
